Short lockage delay possible at Lower Monumental Dam

WALLA WALLA, Wash. – The navigation lock at Lower Monumental Dam, located at Snake River mile 41.6, will experience slight delays on Oct. 3, 4 and 12 due to inspections of the up and downstream locks.

The delay in lockage, if any, will be no more than 30 minutes.

The downstream lock gate will be inspected between the hours of 7:30 a.m. and 5:00 p.m. on October 3 and 4.

The downstream side of the upstream gate will be inspected on October 12 between the hours of 7:30 a.m. and 5:00 p.m. For vessels traveling upstream it is possible for a 30 minute delay, as the lock will have to be turned around for lockage. Vessels traveling downstream should have minimal delay.

The public's cooperation in this matter is appreciated.

For additional information on this matter, please call Ann Glassley at (509) 527-7115 or Jim Bluhm at (509) 527-7114.

Public Notices and other navigation lock information are available on the Internet at:
